### GRAPES HANDLING

Grape bunches are hand-sorted on a vibrating table and chilled with carbonic snow to avoid oxidation and reduce considerably the use of sulphur. After destemming, berries are hand-sorted on a second vibrating table and finally softly crushed. This process is "100% screw conveyor free" to handle grapes as gently as possible.

### WINE MAKING

The must is cooled to preserve its best characters before fermentation in stainless steel vats at controlled temperature. The maceration is long acting using délestage and, partially, submerged cap technique for over 20 days.

### OAK REFINEMENT

The ageing of 20 months is made in medium size oak casks (2500-4000 litres).

### Cellaring

10 - 15 years

### VINTAGE 2020

The vintage began with a mild winter followed by the months of March and April marked by fine weather and little rainfall. The rainy days of May and June caused a slowdown in plant growth. The situation was later normalized. The harvest started on August 21 with Alta Langa. Barbera and Nebbiolo ripening has slowed down but it has been taken up in the second half of September. Especially Nebbiolo grapes were harvested in optimal conditions. The 2020 vintage can be said to be extremely good with intense and elegant aromas and with well-balanced wines.

### THE DIFFERENCE IS

Sanavento is appreciated for its harmony and elegance due to silky tannins and soft acidity. Thanks to the careful handling during the fermentation process, the grape characters are perfectly included in the power of the wine. Sanavento results in a compelling, rich and outstanding Barbaresco.
