WINE MAKING

Grape bunches are hand-sorted on a vibrating table and softly pressed in a nitrogen inert environment with yield in freerun must of 45%. This process is "100% screw conveyor free" to handle grapes as gently as possible. The must is fermented in stainless steel vats at controlled temperature and kept 6 months on lees with bâtonnage.

FOAM FORMATION

The foam formation is carried out according to the traditional method of fermentation in the bottle, with aging on lees for at least 72 months and late disgorgement. We proudly avoid any liqueur d'expédition realising ZERO as Pas Dosé.

VINTAGE 2017

The 2017 vintage growing year will be remembered for its April frost damage and very hot and dry climate. This is why the conditions were perfect in terms of plant protection. In September, temperatures dropped appreciably with considerable differences between day and night temperatures. This situation helped especially the polyphenolic profile of the red wine grapes with a medium-long vegetative cycle. 2017 can certainly be remembered as one of the earliest years with healthy and complex grapes.

THE DIFFERENCE IS

Zero Pas Dosé is the sparkling wine that best represents Enrico Serafino Alta Langa. The complexity of terroir is fully expressed thanks to the meticulous execution of each step from the vine to the wine. The firm decision to avoid any liqueur d'expédition as well as late disgorgement allow Zero Pas Dosé to affirm its greatly appreciated singularity.
